# Where we are now

**Healthcare Systems Interest Group**  
*(formerly the Electronic Health Record Working Group)*

# 2022 Healthcare Systems' OKRs

## Objectives:

1. To provide support for transforming source EHR data to the CDM
2. Support healthcare systems with building the business case to utilize the OMOP CDM
3. Provide value to healthcare systems beyond participating in OHDSI network studies

# To provide support for transforming source EHR data to the CDM

- “Office hours” style agendas during our regularly scheduled meetings 10 times a year.
- Monitor & answer questions on the CDM Builders, Implementers, and Uncategorized forums related to source data or the ETL process.
- Create a central repository of different OMOP sites and their underlying EHR system. Build survey and make available to the community.

# Support healthcare systems with building the business case to utilize the OMOP CDM

- Provide documentation, either published papers or written by this group, to support the business case for healthcare institutions to adopt the OMOP CDM
- Collaborate with the Education WG via WG liaison to support EHR ETLs
- Identify OHDSI sources of knowledge and put into wiki

# Provide value to healthcare systems beyond participating in OHDSI network studies

- Cohort Builder and patient level data export
- Operational reporting
- ???
