OHDSI LATAM Workgroup
OHDSI Community Call

Jose D. Posada
WG Lead

Purpose

The OHDSI LATAM WG empowers the Latin American community to generate high-quality evidence with data where our more than 600 million lives are better represented. We are a common touch point across organizations and countries and serve as guides and facilitators towards resources that make the journey possible.

2022 Accomplishments

- Organized a Workshop in Colombia in alliance with Makehealth LATAM and MIT Critical Data

- Organized an OHDSI course in Brazil in alliance with the Brazilian Society of Health Informatics (SBIS http://sbis.org.br/)

- Protocol for a PLP study shared with the PLP WG and the OHDSI LATAM community

- Started a conversion of Colombian Hospital Data

- Piloted a Conversion with Chilean Data

- Albert Einstein Hospital is now part of the OHDSI data network.

2023 OKRs

- Objective 1: Increase the number of "OHDSI talks" in conferences organized by different scientific organizations in LATAM
  - Key results:
    - Four (4) submissions during 2023 by members of the OHDSI LATAM WG on different events mostly taking place in LATAM.
- Objective 2: Increase the number of new participants in monthly calls
  - Key results:
    - Five to ten new persons are invited to every call
    - Reach out to 3 to 4 fellow OHDSI members for invited talks.
    - Send a monthly newsletter.

2023 OKRs

- Objective 3: Facilitate conversions by working with the Vocabulary WG to ensure the inclusion of relevant local vocabularies into the main OHDSi vocabulary.
  - Key results
    - Inclusion of two relevant Colombian vocabularies
    - Inclusion of two relevant Brazilian vocabularies
    - Inventory list of required vocabulary for Chile and Mexico.
